Report from Wiltshire Council

Report attached to these minutes.

MOD Lyneham Report

Lighting Issues along Eastern Fence Line are being reviewed. The MOD and Wiltshire Council specifically looking again at the ownership of the lights. A site visit was conducted with one of MOD's representatives to work towards getting the lights sorted before next winter.

Bramble Clearing near Church:

The brambles by the church have been cut, but there is a request to have them cut back completely to the fence line. A request for further work has been acknowledged.

Drainage at Church Park, Bradenstoke

There are ongoing discussions regarding the drainage at the Church Park housing area, including contractual issues, damage on MOD property between fence lines, and identifying any potential hazards or services that could be impacted.

Once specific queries as outlined above are adequately addressed work may begin and will hopefully be underway by September.

The MOD has received Noise Complaints from Construction Vehicles and use of generators on the camp.

Several complaints were received 3 weeks ago from Lyneham residents about noise generated by heavy goods vehicles and site infrastructure related to the construction works for the new building associated with the arrival of the RF4 school.

The MOD report covered various operational matters related to MOD Lyneham's facilities and activities, including infrastructure maintenance, environmental concerns, drainage issues, and construction-related noise complaints from residents. The MOD has been reviewing the issue and the Parish Council confirmed that there have not been any complaints raised to the Council.

The MOD was asked about the request to manage the cherry tree outside the entrance to the MOD that is impeding the lights. The MOD was not familiar with

this request and has taken the information forward to seek a solution. FB to write a request to the DIO on behalf of the Council.
